Alerts

1. Alerts are raised automatically:

- late submissions after 11pm
- sales down more than 15% vs the same day last week
- expenses over budget
- food cost above target
- venue rent collected below target
- month-end not closed by the 3rd

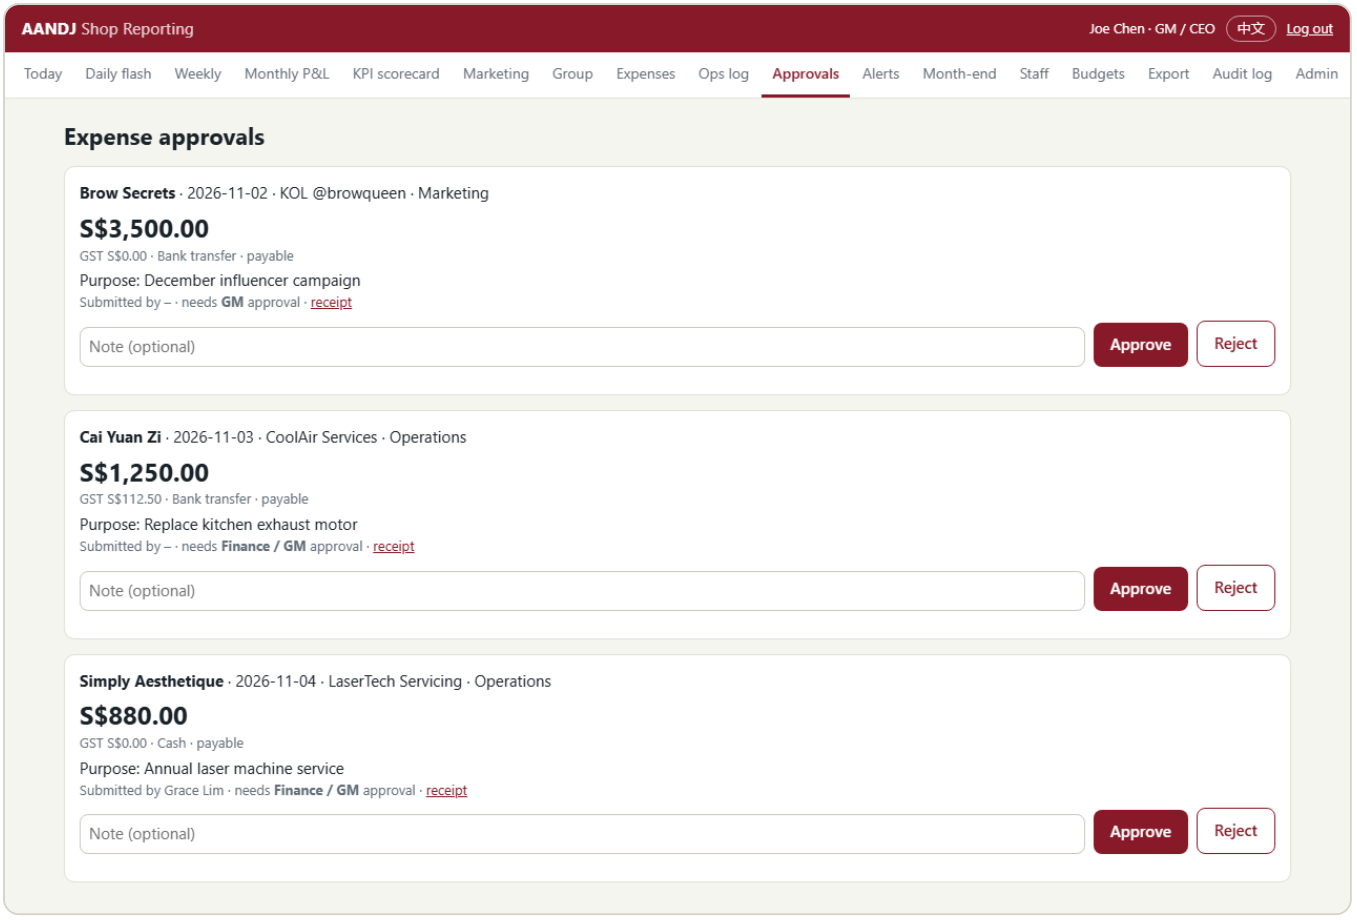

1. Each alert is also sent to your inbox once. Click **Resolve** when it has been dealt with.
2. **Run checks now** runs the checks immediately. Tick the box to also send the weekly dashboard e-mail.

Alerts

Approvals

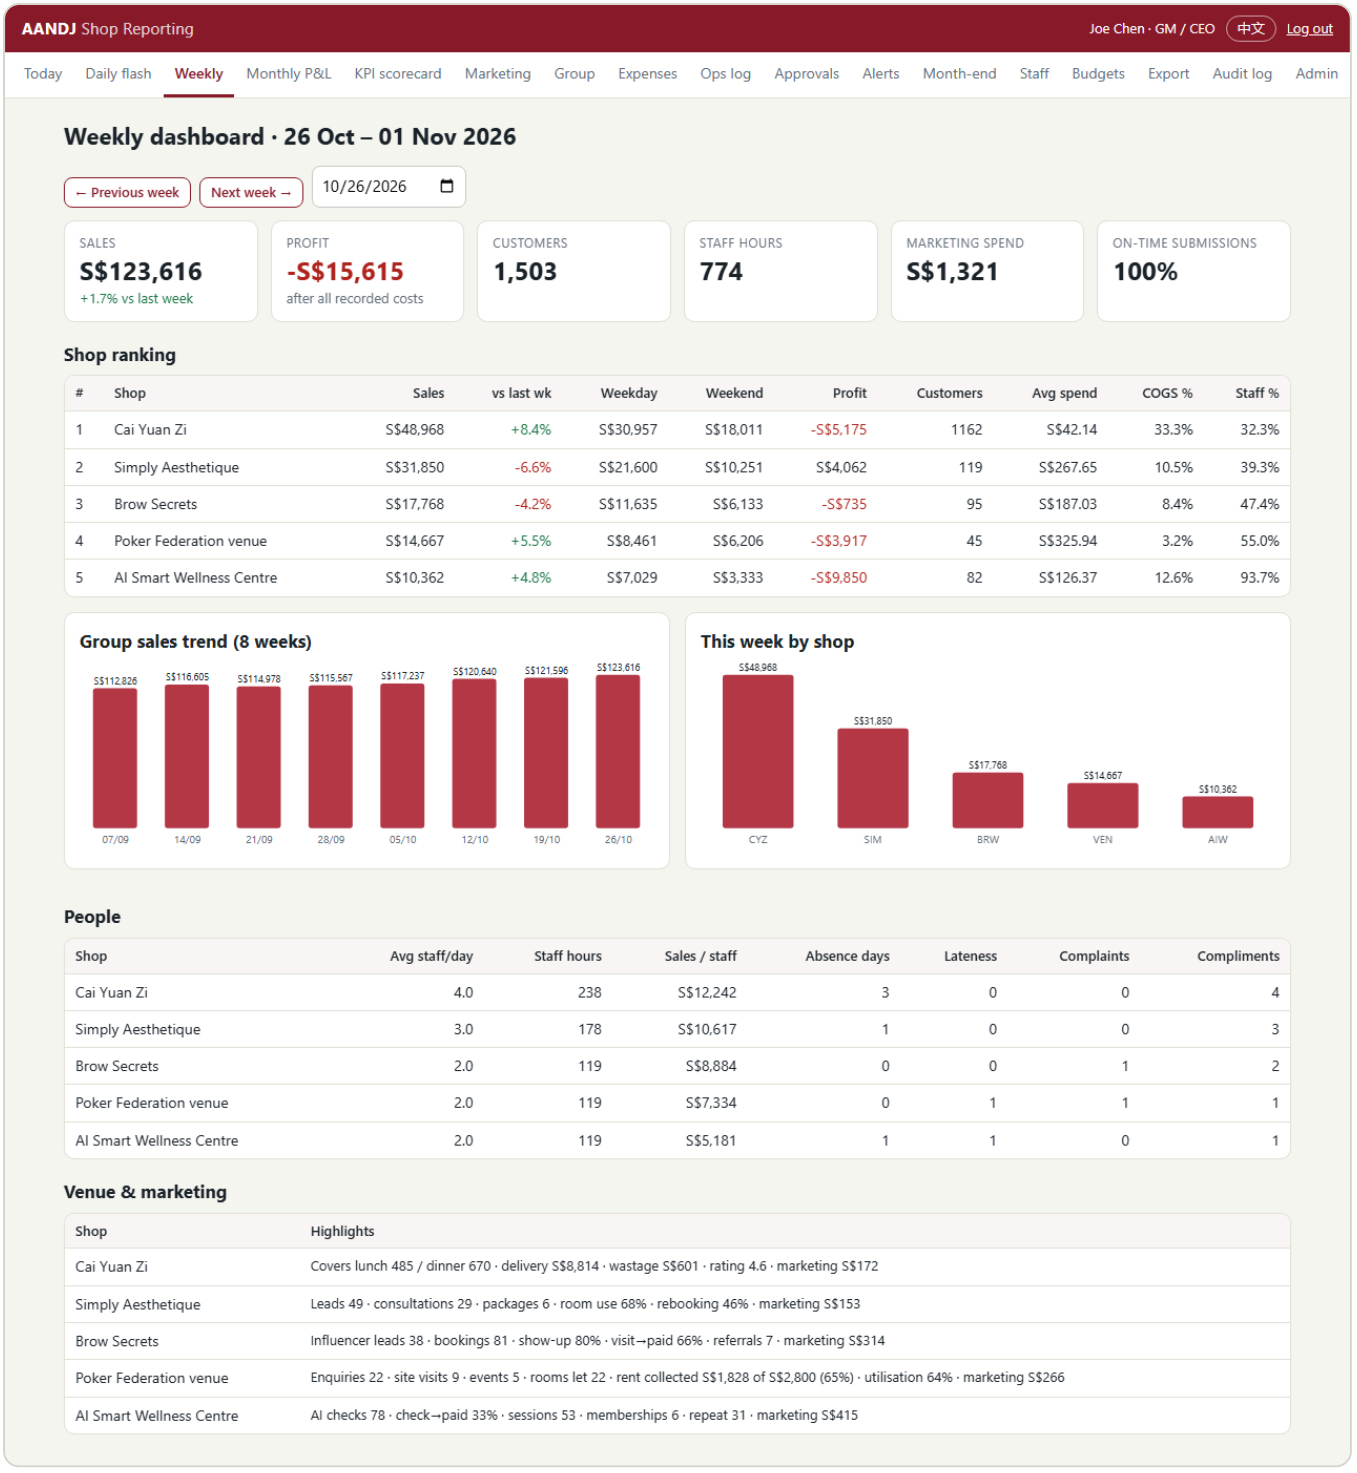

1. Expenses above S$2,000 can only be approved by you. Finance can approve those between S$500 and S$2,000.
2. Add a note if you like, then **Approve** or **Reject**. The person who submitted it is told.

Weekly dashboard

1. Use this for the Monday meeting. It shows sales, profit, customers, staff hours, marketing spend and the on-time rate.
2. Below that are the shop ranking with week-on-week change and weekday vs weekend sales, an 8-week trend, and people, venue and marketing highlights.
3. The same summary is e-mailed every Monday after 10am to you, the heads and Boss Dong.

Weekly

Monthly P&L and KPI scorecard

1. **Monthly P&L** shows each company side by side, the combined group, and budget vs actual with variances. Pick a company to see only its books.
2. **KPI scorecard** compares each KPI with its baseline, floor and target. Green means at or better than target, amber means between the floor and the target, and red means worse than the floor.
3. From the 7th, the previous month's P&L is e-mailed to you and Boss Dong.

Admin – controls

1. **Admin** → **Controls** sets the following:

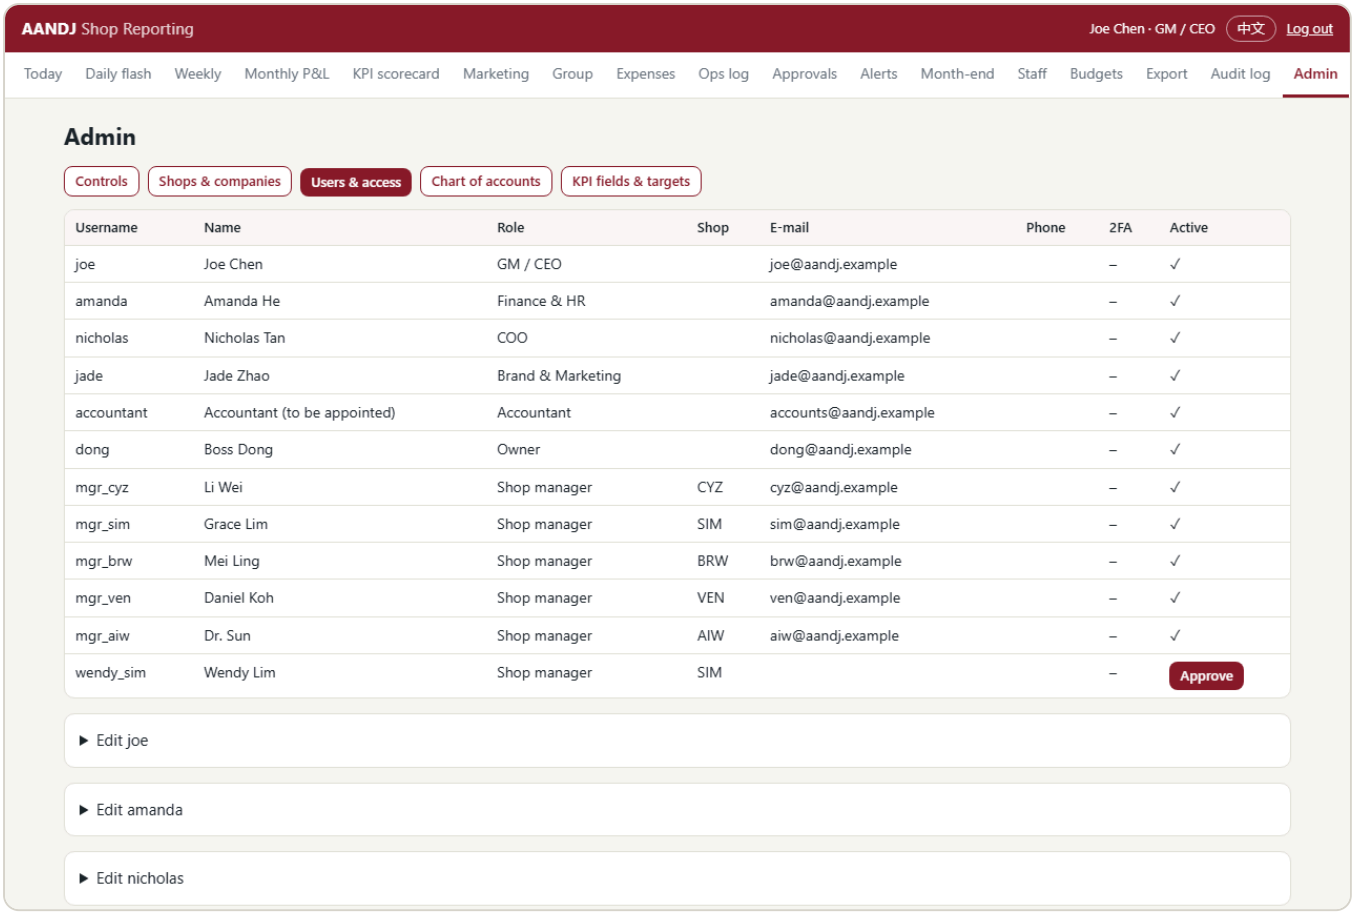

- the amount above which a receipt is required
- the Finance and GM approval limits
- the daily deadline hour
- the sales-drop alert %
- the public address used in e-mails
- whether two-factor login is required for everyone

Admin controls

Admin – users and new account requests

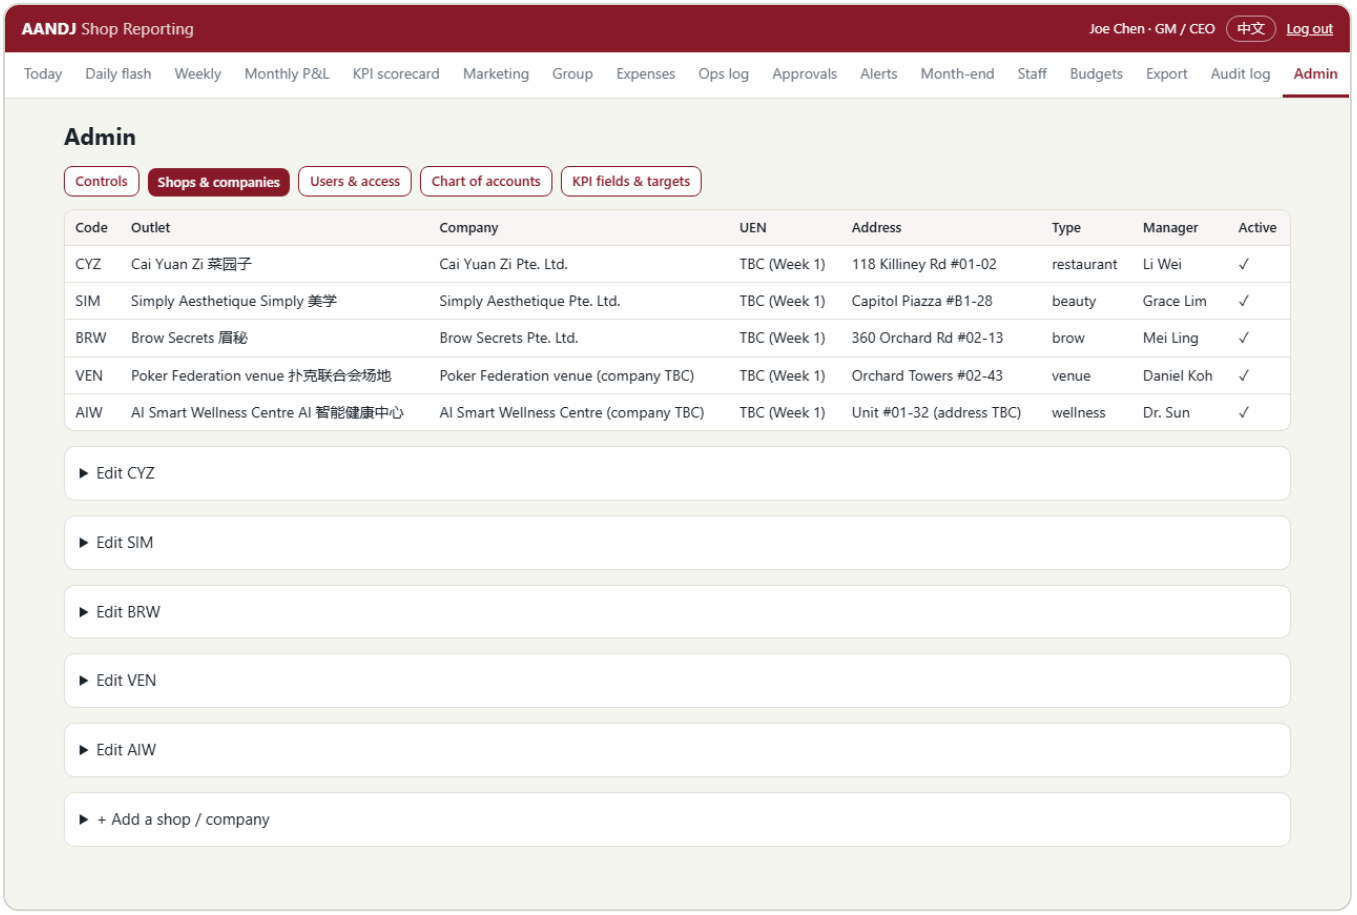

1. Staff can request an account from the sign-in page. The request appears here with an **Approve** button, and you also get an inbox message.
2. Open a user to change their role, shop, password, or active status, or to reset two-factor login.

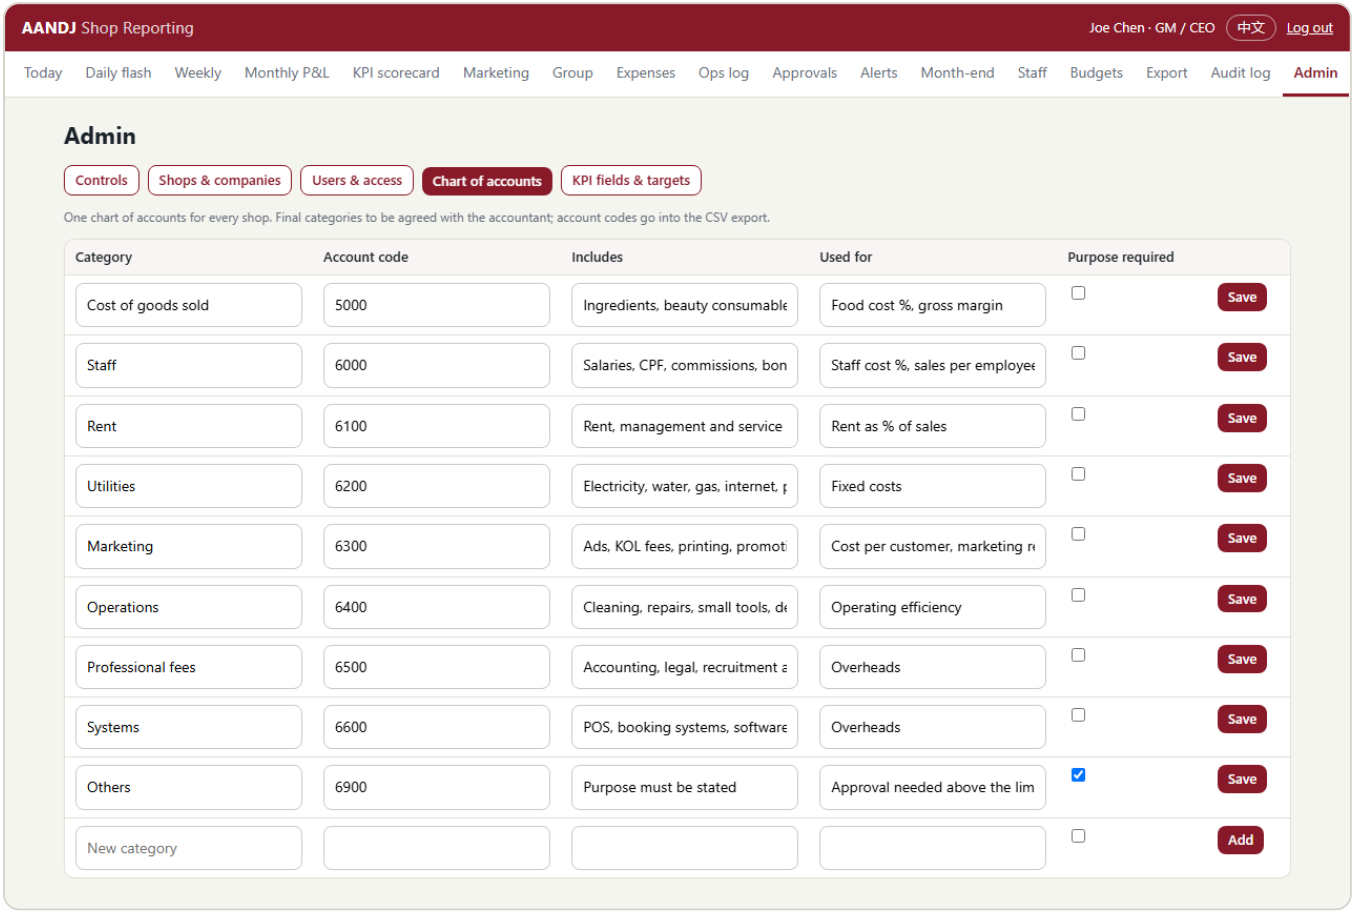

Admin users

Admin – shops, chart of accounts, KPI fields and targets

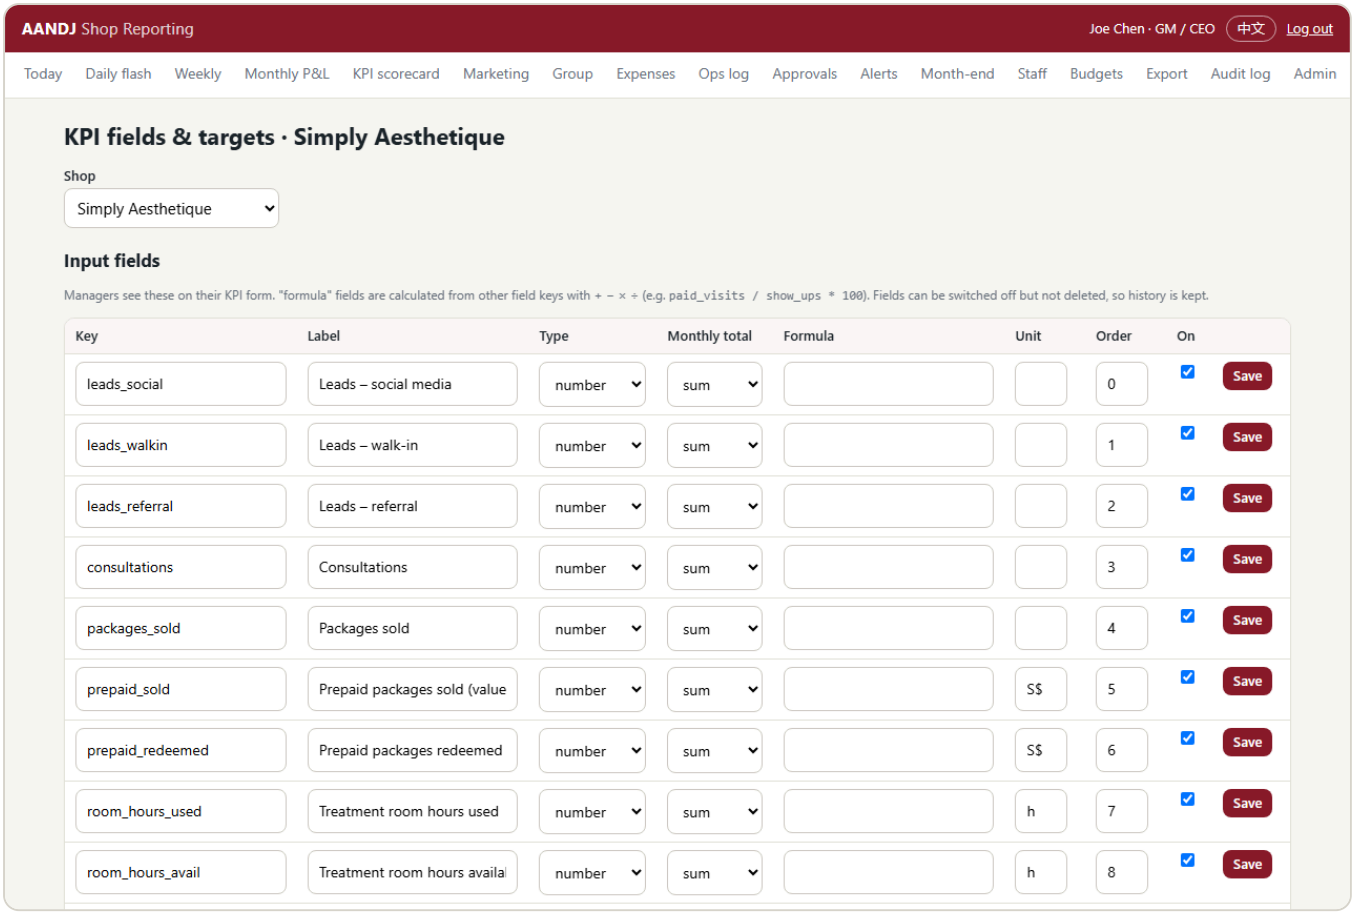

1. **Shops & companies**: names, UENs, addresses and managers.
2. **Chart of accounts**: expense categories and the account codes used in the export.
3. **KPI fields & targets** (per shop): add or switch off fields with no code changes. Formula fields such as `paid_visits / show_ups * 100` are calculated automatically. You also set the baseline, floor and target for each KPI here.
